

# UNMC TODAY: Clinical Trial Spotlight

Final story will be 400 words

Name of Study:

PI on Study:

IRB#:

How many participants needed?:

---

Why are we doing this study? In simple terms, what is the health topic? What is the significance? What problem is being addressed by the study?

Who is the research lead and what is this team doing to address the problem? Is the methodology new or innovative? Why are volunteers needed for the study?

Who may be eligible for the study? (Bullet points)

What are the expectations of study participants? Be as descriptive as possible. (Could be bullet points)

How do we hope the study will, ultimately, impact patients?

Who to contact to qualify with phone and email or link to qualifying information.

## SIDEBOX – Informational sidebar

Healthcare providers or patients themselves can search the [UNMC Clinical Trials Databases](#) to find a study specific to a particular condition or disease. To learn more about UNMC research, the research process, or to participate in a clinical trial contact the Research Subject Advocate Office ([unmcrsa@unmc.edu](mailto:unmcrsa@unmc.edu) or 402-559-6941).
