# BIG TEN AUGMENTED INTELLIGENCE BOWL

This 1st Annual Big Ten Augmented Intelligence Bowl is hosted by the Institute for Augmented Intelligence in Medicine at Northwestern University.

The competition: We're looking for multi-disciplinary teams from each Big Ten Academic Alliance school to propose creative solutions to a health disparity issue. In Phase 1, teams will identify a problem, and pitch a potential solution. In Phase 2, teams will present their implementation/proof of concept of their solution.

## 1ST PLACE: 35K        2ND PLACE: 10K        3RD PLACE: 5K

### Tools for Success

Teams that successfully progress past Phase 1 will be provided with mentoring and resources to help develop their initial implementations.

### Case

Proposals may focus on:

- Risk prediction
- Imaging analysis
- Augmented decision making
- Mitigating bias

### Shared Goal

Raise the profile and community around Augmented Intelligence and intensive data analysis across BIG10 Schools

## Accepting Applications!

Each school is allowed to have one team in this competition.
Please review the Rules & Guidelines before submitting your team application.

Deadline for team application:  11:59 pm CST on April 2, 2021
