

WHAT IS ACTIV-6?

The ACTIV-6 research study is testing several medications that are already approved for other diseases to see if they can help people with mild to moderate COVID-19 feel better faster and stay out of the hospital.

ACTIV-6 is part of the Accelerating COVID-19 Therapeutic Interventions and Vaccines (ACTIV) program.

GOALS OF ACTIV-6 INCLUDE:

- Testing medications already approved to treat other diseases to see if they can help people with mild to moderate COVID-19 who are not in the hospital.
- Finding out if these medications can make people with COVID-19 feel better faster and keep people out of the hospital.
- Learning about the symptoms of participants during the study.

ACTIV-6

WORKING TOGETHER TO HELP PEOPLE
WITH COVID-19 FEEL BETTER FASTER

A clinical research
study to find effective
treatments for people
with mild to moderate
COVID-19.

YOU ARE MAKING A DIFFERENCE!

Together, we are changing the future of COVID-19 treatment. As a participant, you are helping to find answers so people with COVID-19 can feel better faster.

THANK YOU!

ACTIV-6

www.activ6study.org

ACTIV-6

AS A PARTICIPANT, YOU WILL:

- Take either a study medication or placebo, as prescribed. A placebo is a medication that has no active ingredients and will have no effect.
- Answer short surveys daily for 14-28 days. Surveys are taken online on a secure, private website. There are no in-person study visits.
- Complete a follow-up survey after approximately 90 days.
- Be part of a group of people across the U.S. who are helping to find better treatments for COVID-19.

WILL I RECEIVE A STUDY MEDICATION OR PLACEBO?

- The study is testing up to 7 different medications.
- The medications are already approved by the Food and Drug Administration (FDA) to safely and effectively treat other diseases.
- You will be assigned by chance to receive only one medication or a placebo, but neither you nor the study team will know which one you get.
- All of the study medications will be shipped to you at no cost.

YOU WILL FIND INSTRUCTIONS FOR HOW TO TAKE YOUR MEDICATION ON YOUR WELCOME CARD.

Welcome to the ACTIV-6 study!

Together, we are changing the future of COVID-19 treatment.

HAVE QUESTIONS?

Someone is available to assist you 24 hours a day. Call the number on the back of this brochure.

Taking part in ACTIV-6 is voluntary. You can decide to stop participating at any time.

WHAT IS A CLINICAL RESEARCH STUDY?

A clinical research study (also called a clinical trial) helps researchers learn more about how to treat and prevent diseases and can help improve future health care.

The results from clinical research studies provide important information about the benefits and risks of new or existing medications.
