Professional Development

The Great Plains Primary Care PBRN provides links to professional development opportunities, in the form of seminars and webinars, that enhance clinical expertise, reveal best care practices, promote clinical research, and deliver cutting-edge research findings. Continuing education credits are available for select in-person and distance participation. Additional professional development opportunities can be found on the PBRN education webpage [here](#).

2023 Nebraska Hospital Association and Nebraska Rural Health Association Spring Forum and Rural Health Clinic Conference

The Nebraska Hospital Association and the Nebraska Rural Health Association are co-hosting the 2023 Spring Forum and Rural Health Clinic Conference on May 23-25 at the Younes Conference Center in Kearney, NE. Speakers and presentations will address issues faced by rural hospitals and clinics in Nebraska.

Research

Learn about upcoming, ongoing, and completed research impacting the region. Please share these opportunities and findings with your patients and healthcare community. A complete list of ongoing research can be found on the PBRN Research webpage [here](#).

PBRN Sponsors Two UNMC Medical Students for Summer Research

Sophia Jensen and Kiersten Preuss were selected to conduct research under mentorship of the PBRN as part of the Great Plains IDeA-CTR Primary Care PBRN Medical Student Summer Research Program (MSSRP). Learn about Sophia and Kiersten below!

Name: Sophia Jensen

Year In Medical School: M1

Project Title: Promoting Routine Pediatric Mental Health Screening and Treatment

Name: Kiersten Preuss

Year In Medical School:
Incoming M1

Project Title: Vitamin B12 Deficiency in Children and Gestational Mothers: A Community Focus

Community-Engaged Research Interest Group Seeks Members

The Community-Engaged Research Interest Group (CEnRIG) is beginning its third year and is looking to welcome new members who are interested in working with communities and clinical partners in research. The CEnRIG brings researchers, clinicians, community partners and network members together to enhance the quality of community-engaged research, generate new ideas, increase funding opportunities, improve the potential community impact and move community-engaged science forward. Email emily.frankel@unmc.edu to join!

The Great Plains IDeA-CTR is a collaborative effort between nine biomedical research institutes across the Great Plains. The project described is supported by the National Institute of General Medical Sciences, U54 GM115458, which funds the Great Plains IDeA-CTR Network.
